# Welcome Note

Dear Attendees,

It's a sheer elation in welcoming you to **International Conference on Cell Engineering and Regenerative Medicine** held in **Valencia, Spain** during **April 25-26,2019** organized by **PAGES- Pangea Global Events** in collaboration with generous support and cooperation from enthusiastic Academicians and our Scientific Board Members. **International Conference on Cell Engineering and Regenerative Medicine (CERM- 2019)** will be addressing the new approaches that offered by Tissue Engineering and Regenerative Medicine to meet the challenges of future concerning Stem Cell research, Replace damaged tissue, Scaffold-biomaterials, organ transplantation and cell therapies.

CERM-2019 Conference presents high quality sessions on emerging trends and new technologies to recreate cells and regenerate tissues and organs using foreign biological material, Tissue synthesis, culture and Banking, Bioengineering, Biomaterials and design by featuring experts from across the globe.

## The privileges we bestow you to embrace at our conference are:

- Multi-cultural mix of audience which will proffer you with best networking prospects
- A unique platform to share your research work and get feedback from diverse perspectives
- Meet Academia and Industry visionaries to get inspired
- Proceedings will be published in reputed Journals
- Highly Organized and Structured Scientific programs
- Poster Presentations and Exhibitions give a chance to pitch your own ideas, products or services

And many more...

We hope you will join us for a symphony of outstanding science, and take a little extra time to enjoy the spectacular and unique beauty of this region.

**Sincerely,**  
Operating Committee,  
CERM - 2019

# Conference Highlights

**CERM-2019**, as the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

## Sessions:

- |  |  |
|--|--|
| <ul style="list-style-type: none"><li>● Tissue Engineering, Methods and Regeneration</li><li>● Scaffolds and Regenerative Medicine</li><li>● Biomedical Engineering</li><li>● Stem Cell Research and Applications</li><li>● Cell Biology and Engineering</li></ul> | <ul style="list-style-type: none"><li>● Cell and tissue research</li><li>● Smart Biomaterials and design</li><li>● Tissue synthesis, culture and Banking</li><li>● Bioengineering</li><li>● Novel approaches in Tissue Science and Regenerative Medicine</li></ul> |
|--|--|

## For Abstract Submission:

## About City:

Valencia on the east coast of Spain, is the capital of the autonomous community of Valencia and the third-largest city in Spain after Madrid and Barcelona. The city is situated on the banks of the Turia, on the east coast of the Iberian Peninsula, fronting the Gulf of Valencia on the Mediterranean Sea. Its historic center is one of the largest in Spain, with approximately 169 ha (420 acres). This heritage of ancient monuments, views and cultural attractions makes Valencia one of the country's most popular tourist destinations. The city is ranked at Gamma+ in the Globalization and World Cities Research Network.

## Climate

Valencia has a subtropical Mediterranean climate with short, very mild winters and long, hot and dry summers. Its average annual temperature is 18.4 °C (65.1 °F); 23.0 °C (73.4 °F) during the day and 13.8 °C (56.8 °F) at night.

Spring, from March to May, is mild and sunny, with rainy days still possible, but not very frequent, and some afternoon thunderstorms that stray from the interior in late spring. In May, and sometimes in April, the first hot days occur, with highs around 30 °C (86 °F).

The amount of sunshine in Valencia is very good in summer, when clear skies prevail, it is good in spring and autumn, and decent even in winter: there are on average 5 hours of sunshine per day in December, 5 and a half in January and 6 in February.

## Tourism

Spain's third-largest city is a magnificent place, content for Madrid and Barcelona to grab the headlines while it gets on with being a wonderfully liveable city with thriving cultural, eating and nightlife scenes. Never afraid to innovate, Valencia diverted its flood-prone river to the outskirts and converted the former riverbed into a glorious green ribbon of park winding right through the city. On it are the strikingly futuristic buildings of the Ciudad de las Artes y las Ciencias, designed by local boy Santiago Calatrava. Other brilliant contemporary buildings grace the city, which also has a fistful of fabulous Modernista buildings, great museums, a long stretch of beach and a large, characterful old quarter. Valencia, surrounded by its huerta, a fertile zone of market gardens, is famous as the home of rice dishes such as paella, but its buzzy dining scene offers plenty more besides; it's a superb spot for eating.

## Transportation

Public transport is provided by the Ferrocarrils de la Generalitat Valenciana (FGV), which operates the Metrovalencia and other rail and bus services. The Estació del Nord (North Station) is the main railway terminus in Valencia. A new temporary station, Estació de València-Joaquín Sorolla, has been built on land adjacent to this terminus to accommodate high speed AVE trains to and from Madrid, Barcelona, Seville and Alicante. Valencia Airport is situated 9 km (5.6 mi) west of Valencia city centre. Alicante Airport is situated about 133 km (83 mi) south of center of Valencia.

The City of Valencia also makes available a bicycle sharing system named Valenbisi to both visitors and residents.

## Venue Details

### MELIÁ VALENCIA

**Av. de Les Corts Valencianes, 52, 46015 Valencia, Spain**
